Dear Sir:

I am a private collector of aviation medals, commemorating heavier-than-air flights and events or honoring civilian and military pilots.

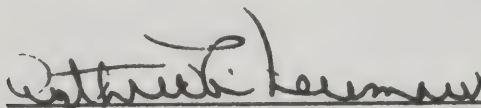

It has become increasingly difficult to locate such medals through normal commercial channels.

This letter is written in the hope that you will mention my interest to your members and that some of them may have aviation medals which they are willing to sell.

I am collecting these medals for ultimate donation to Princeton University and shall appreciate any help you can give me in making the collection representative and worth while.

All communications will be answered promptly.

Sincerely,

Arthur L. Newman

Yes, for a number of years we received copies of the minutes of the meetings of the West Ia. Num. Soc., from which we were frequently able to find items that would be of interest to other collectors.

As you probably know we had to give up publishing club minutes as such several years ago when the number of clubs began to grow so rapidly, however, we do like to receive them to glean items of interest therefrom.

Please accept my congratulations to you as you step into the office of Secretary and Treasurer of the excellent Western Numismatic Society of Pennsylvania. I am sure you will fill the position to the utmost degree.

I am asking Mr. Smedley, Assistant to the Editor, to answer your request for information, as he is presently handling matters concerning the clubs.

Dear Dr. Hudson:-

Your letter of July 7 to Editor Bradfield was forwarded to me for reply. One of my assignments in assisting the Editor is to edit and prepare "Club News" for publication.

First, let me thank you for taking the direct approach to your new position as Secretary of Western Pennsylvania Numismatic Society. We only wish that more of the people who report club news would seek - or even welcome - information as you have done.

Some time ago, we prepared a form letter which gives suggestions on reporting club news, and I enclose a copy herewith. There is not much that I could add to it, except the little detail that it is helpful if reports be made on standard size paper. I might stress the value of checking a copy of your report with the report as published, so as to observe what changes we make in the interest of clarity and saving space.

Considering the cost of publishing and distributing a page of The Numismatist, and the number of clubs which send in reports, it is quite important that we eliminate things which are not of interest to readers in general. Most of the reports received contain information which is of interest only to the members of the local club - this we try to cut out for obvious reasons.

Your cooperative attitude is appreciated very much. We will do our best to accommodate you in publishing your "Club News." Please feel free to write either the Editor or myself on any questions which arise.

If you get to the Atlanta Convention, please make yourself known to us.

Sincerely yours,

Glenn B. Smedley

GENTLEMEN:

I am herewith enclosing the application and check in amount of \$3.00 covering the initiation fee and dues for one year for Robert L. Glose, of 701 Amberson Street, Pittsburgh 32, Pa.

I have known Mr. Glose for about five years and know him to be an avid and intelligent numismatist whose specialty in the field lies in United States Paper Money. Mr. Glose has exhibited his excellent collection at several of the conventions of recent years and is well known in this respect.

I unhesitatingly recommend him for membership in our Society. Mr. Glose is retired and has been actively interested in numismatics and especially currency for the past ten years. He is a member of the American Numismatic Society.

Very respectfully submitted,

Dear Reverend Gillis:

I would like to take this opportunity to express, on the Western Pennsylvania Numismatic Societies behalf and my own, our regrets that you will not be with us during the coming year. When you find yourself permanently located, please forward us your address, and I will try to see that you receive the minutes of our meetings.

I have found a reference to the Kittanning medals. This medal was given to the officers of the force that destroyed the Indian village of Kittanning by the City of Philadelphia, which was under the English King George II. It is considered an Indian Peace Medal and very rare. There have been restrikes of it and the original was struck in pewter and copper. All of this is listed in Chapman's Catalogue,

Again the best to you from all of us,

Sincerely,

Dear Dick:

Since I will not be able to attend our October meeting, I am enclosing the keys to the WPN.S cabinets.

In fact, it appears that I may be leaving Pittsburgh soon. Therefore, I must, with regret, tender my resignation as curator of the WPN.S.

It has been a pleasure to be a member of the Western Pennsylvania Numismatic Society, and I certainly shall miss the meetings and my many friends.

Whenever possible, I hope to be able to attend an occasional meeting and say hello to everyone.

Regards to all.

Sincerely,
Charlie

Dear Bob:

I am attaching an abstract of my talk on U.S. Paper Money per your request of October 25, 1961. If it is too long, you may edit it as you please.

I am very glad that somewhere along the line the title was changed from Paper Money of the World as this subject is too broad for a single presentation.

Hope to see you on November 7, 1961

Very truly yours,

U. S. Paper Money

Prior to the enactment of the First Legal Tender Act no official U. S. paper money existed. With the start of the Civil War metallic money was hoarded and a serious financial situation arose. The intense debate in Congress over the desirability of issuing paper money is a strong reminder of the hazards of this type of currency. Despite many misgivings the Act was passed purely as an emergency measure. Fortunately, all U. S. paper money issued since the First Legal Tender Act became a law is still redeemable in coin and is acceptable throughout the world.

The collecting of U. S. paper money can satisfy a wide variety of interests. These include collecting by denomination and type. Different signatures related to different denominations or types are also available. Some collectors find enjoyment in collecting certain combinations of serial numbers and there is a limited interest in plate numbers. Even "mint marks" exist in paper money through the collecting of the 12 different Federal Reserve Bank Notes. Freaks are varied and plentiful.

In addition to the regular U. S. Notes there are other collectable areas. The collecting of Confederate paper money and the broken bank notes is receiving considerable attention. Other possibilities include Prisoner of War currency, commercial script, clearing house checks and, of course, Continental Currency. In fact, there are few coins or tokens that do not have their counterpart in paper.

Dear Sir:

Enclosed is my check for \$6.00 to
bring me up to date with the dues.

Please consider this memo as my
resignation from the Club. It is with regret
that I take this action. Due mostly to personal
reasons - inconvenience of reaching Oakland
from N.S. Bldg., the near impossible parking
situation, and general ill health - has made
it extremely difficult in recent years for me
to take any important part in the Society.

Hope to be present at the annual
dinner and meeting downtown next month.

Dear Mr. Young:

I read your letter of resignation at the meeting of the Western Pennsylvania Numismatic Society, Tuesday, November 7, 1961. Club Hears Richard Foley

Fifteen members and two guests enjoyed a talk on "The Coins of the Hudson Bay Company" by President Richard Foley at a meeting of the Western Pennsylvania Numismatic Society held in the Library of the Carnegie Museum, Pittsburgh, Pa., February 6.

Foley developed the history of the Hudson Bay Company in relationship to exploration to find a route to India, and the need for beaver furs for Europe for articles of clothing, caps, etc.

Interestingly enough the development of the company was directly related to the need of beaver fur hats which were popular in Europe at that time. With his talk, Foley exhibited many tokens of the company, they were as follows:

Northwest token 1820, Hudson Bay tokens 1- $\frac{1}{2}$ - $\frac{1}{4}$ - $\frac{1}{8}$ MB, "Beaver" Wreck Medal 1892, Hudson Bay St. Lawrence Labrador Dist. 20-10-5-1, H.B. Co.-Labrador Dist.

20-5, H. B. Co. Set of White Fox Tokens 1-100-50-25-10-5-Unc.

Other exhibits were as follows: David L. Davis, 2 1941 U. S. dimes; Robert J. Hudson, Canadian I. G. Baker Company Brass tokens counter stamped "Hudson Bay Company."

John S. Kachmar, Minor Coins of Queen Victoria; M. Goddy, 42 Canadian Coins; J. Kennedy, Type set of George VI, 18 large cents, various Canadian Coins, and Ray Byrne, two Complete sets of U.S. Proof Indian Cents, one set of Lincoln cents in Und., two 1856 Flying Eagle Cents in proof.

The Western Pennsylvania Numismatic Society met in the Carnegie Museum Library, Tuesday, May 1, 1962 at 8:00 P.M. Richard Foley presided. Present were 13 members and 2 guests.

The speaker of the evening was Ray Byrne who talked on "Coinage in the West Indies and Caribbean Islands, 1835-1962. He pointed out in his very interesting talk that the islands depended on trade with the outside world for their existence and most currency was taken out of the colonies as payment for goods received. It was mandatory that whatever currency could be kept in the islands would enhance the buying power for the clothing and other necessities which these settlers needed. Thus was born the idea of so marking this currency that came to the islands through trading, buccaneers, and the like, so that it could be used only in the islands so designated by the specific countermark. Thus the origin of the cut and counterstamps.

EXHIBITS:

At the last meeting of the Western Pennsylvania Numismatic Society it was agreed that one of the duties of the Secretary would be to forward an obituary of deceased members to the Numismatist. In light of this responsibility to the society, I would like to ask your permission to formulate an obituary and forward this and Lee's picture to the Numismatist. I hope to contact you personally within the next week.

Hoping that you are feeling well, I remain with my kindest personal regards.

Sincerely yours,

The Western Pennsylvania Numismatic Society met in the Carnegie Museum Library, Tuesday, September 4, 1962 at 8 P.M. Richard Foley presided. Present were 13 members and 3 guests.

The speaker of the evening was Ray Byrne who talked on "The Case of the Confusing Mint Marks". The essence of Mr. Byrne's paper related around the mint marks of Lima vs. Potosi vs. Popayan. He indicated that collectors of the coins of the early Spanish American mints find it difficult to properly attribute certain coins struck at the above listed mints. This is due to the lack of remaining designs on these early pieces which was a direct result of the crude minting methods used; but more so because of the similarity in the use of the letter "P" as the mark at all 3 of these mints. Ray Byrne informed the society that the differentiation of these mints is based on the date appearing on the coin in question and the assayers initial which also appeared on the coin on the reverse at diagonal corners from the mint letters. The student can only identify by the latter method if he has the proper references listing these assayers and the time of their tenureship at the particular mint. If any readers are further interested in clarifying these points, do not hesitate to contact Mr. Ray Byrne, Pittsburgh, Pennsylvania.

LEWIS M. REAGAN MEMORIAL FOUNDATION

LEWIS M. REAGAN, 1904-1961

See Next Page

LEWIS M. REAGAN MEMORIAL FOUNDATION, INC.

Incorporated as a nonprofit organization, the Lewis M. Reagan Memorial Foundation, Inc., is an entity independent of the American Numismatic Association, although it seeks and is assured of complete A.N.A. cooperation and sponsorship. Its governing body is made up of prominent A.N.A. members.

The Foundation has been organized to perpetuate the memory of the late A.N.A. General Secretary, Lewis M. Reagan, by assuring that those numismatic features which he held important will be continued and that his hopes and plans will come true.

Lew Reagan sacrificed much so that his time could be devoted to the A.N.A. He turned down a teaching appointment at Annapolis, Md. Contracts for textbooks on mathematics were sometimes signed, often not. Frequently weekends were away from home to attend coin conventions. And always he thought of ways and means whereby numismatics could be advanced and made better.

Funds accruing to the Foundation are to be used to continue all present A.N.A. awards if for any reason donors fail to support their sponsorships.

The Foundation will establish scholarships at colleges and universities which teach numismatic courses.

The Foundation will underwrite the publication of worthwhile numismatic books, etc.

The Foundation will assist numismatic projects that are deemed to be in the general interest.

Through this Foundation, the memory of Lewis M. Reagan will serve the cause of numismatics and the programs of the American Numismatic Association.

Within the Foundation are Awards, Finance and Management Committees. Lending their efforts and influence to the Foundation under Chairman Sol Kaplan are Amon Carter, Jr., Louis Eliasberg, Jr., Charles M. Johnson, Dr. J. Hewitt Judd, Mrs. R. Henry Norweb, William A. Philpott, Jr., Mrs. Shepard Pond, Cecil H. Ryan and Nate S. Shapero. Publicity will be handled by Elston G. Bradfield, Lee F. Hewitt, D. Wayne Johnson, A. Kosoff, Chester Krause and Vir Den Mayo.

A.N.A. members and nonmembers are cordially invited to make contributions of \$1.00 or more to the Foundation, thus becoming a part of this numismatic project and active supporters of its worthy purposes. Fill in the coupon and send your contributions to the Lewis M. Reagan Memorial Foundation, Inc., 1201 Federal Reserve Bank Bldg., Cincinnati 2, Ohio.

DO IT TODAY!

of the credit for this phenomenal growth can be attributed directly to the untiring efforts of this one man. He sponsored a large percentage of the newcomers into the organization. He collaborated with others in devising methods of holding the interest of the active membership. Old timers were granted their original numbers and had their rightful seniority restored. Wherever he traveled, with whomever he met or carried on a correspondence he made new friends, and tactfully kept in touch with the old. Somehow, he found time to attend to their whims and fancies, numismatical or otherwise. Lew, as he will always be known by his hundreds of devoted friends, seemed to feel that every member was, more or less, his personal charge.

The membership felt and appreciated this personalized touch. The office in Wichita was a focal point of activity, with mountains of mail awaiting his personal attention. At the big conventions, it was always "Check with Lew." As the membership grew, so did the amiable Secretary's roster of friends. They presented him with a special award in 1954, the same year that he received the Farran Zerbe Memorial Award. Both were for distinguished service and his many contributions to the Association. His popularity attained such heights, over the passing years, that members and officers alike looked upon him as the A.N.A. itself.

His participation was eagerly sought in all important numismatic events. His presence assured its success. His sage comments from the rostrum were treated with the highest regard, whether in a coin meeting or his class at the University. Hidden beneath the serious vein of his remarks was a keen sense of humor, sometimes as dry as his Midwestern drawl. He fully enjoyed an amusing story but became the absent minded professor when asked to retell it.

The dramatic part of Reagan's life was that he never lived to reap the harvest or receive the accolades properly due for his unselfish endeavors. Time ran out on this man who let no personal sacrifices hinder the progress of the great numismatic organization he guided. What prompted such ardent loyalty?

Lew loved the A.N.A. He loved to contribute his efforts to the administrative duties, to its great conventions and to its network of other activities. He loved the fraternal aspects more than he loved the science of numismatics phase. Above all, he loved the contacts he made with its many members, be they young, old, rich, poor, collector, novice or dealer. It was his life!

The fraternal spirit was initiated by the founder of the Association, Dr. George F. Heath, strongly advocated by its great numismatic scholar, Farran Zerbe, but actually put into practice and graciously sponsored by the genial General Secretary. May the memory of Lewis Martin Reagan, a man dedicated to the spirit of brotherhood and understanding of his fellow man, be forever enshrined in the chronicles of the American Numismatic Association. — JACK W. OGILVIE, A.N.A. Historian

SOL KAPLAN . . . Managing Director

September 7, 1962

Dear Friend:

Your interest in Numismatics is evidenced by your membership in this coin club and your desire and ability to serve has resulted in your election as an officer.

These facts tell us of your appreciation of the need for organized assistance in our hobby. For these reasons, we now ask your help in a project which has already attracted many devoted men.

You probably have read about the Lewis M. Reagan Memorial Fund. You are now invited to become a part of this activity - and when we tell you what the Fund will provide, you will respond with enthusiasm.

EXHIBIT AWARDS - There are a number of awards donated to the American Numismatic Association for presentation to exhibitors at annual conventions. Conceivably, some of these donations may lapse because of death, discontinued interest on the part of the donor, or some other reason.

Should any such donation lapse, the Fund will take over the responsibility and insure the continuance of such a desirable feature of our national conventions.

Equally important -- perhaps more important to you - the Fund will provide new awards for worthy exhibits at sectional or club shows and conventions. YOUR club or sectional organization can benefit directly. Actually, your support of the Fund will HELP THE FUND HELP YOU!

BOOK PUBLICATIONS - Frequently the Numismatic World remains in the dark about worth while subjects simply because the expert who can write about it - and often has already written about it - cannot afford to publish his work. The Fund will undertake to publish such works and make them available to collectors. Such a service cannot be valued in dollars and cents.

SCHOLARSHIPS - True Numismatic students are becoming the exception rather than the rule. If we are proud of our hobby we should strive to keep it on a high scientific pedestal. In order to do this, the Fund will provide scholarships for worthy young men and women to study Numismatics at several universities which offer such courses.

We are soliciting aid from all of the coin clubs. Several have come forward voluntarily with donations solicited from their members by the club secretary or president. In fact, that gave us the idea to write to all club secretaries and to ask them to become the official representatives of the Lewis M. Reagan Memorial Fund Committee.

You are earnestly requested to accept this invitation to represent the Committee at your club. If you cannot, please see that someone is appointed. Have all of your members contacted, see that each member receives our leaflet, urge each one to send his contribution or, better still, collect it from them.

Then send the receipts plus the names of all contributors to the

We know that this service will be a source of everlasting gratification. Thank you for staying with this lengthy message and thank you in advance for what we know will be a fine response.

Very sincerely yours,

Accused In Fraud

Dealer Coins New Mail Twist

Too many flips of the coin of chance have led to the arrest of a Stanton Heights man on mail fraud charges.

Edward Moschetti, 34, of 1429 Hawthorne St., was arrested at his home yesterday after postal inspectors found approximately \$500 worth of rare gold coins in his cellar.

The inspectors said that for the past three months Moschetti, a coin collector, had been ordering the gold coins from dealers all over the country.

Moschetti, who works for a Downtown firm as a stock and bond salesman and operates Eddie's Coin Shop from his home, received the coins for approval from the dealers, the inspectors said.

When he received them he

EDWARD MOSCHETTI

The Midas touch.

allegedly removed the coins and sent the empty envelope

back to the dealers claiming he never had received them.

Since all the letters were insured by the dealers they then would apply to the Post Office for reimbursement.

After 20 or 30 complains had been received postal inspectors began an investigation, leading to Moschetti's arrest.

Pending an accurate

count and evaluation of the gold coins, the agents estimated their value at \$5000.

They are continuing their investigation for other possible violations.

Moschetti, who agents said admitted the fraud, was released on his own recognition after waiving hearing before U. S. Commissioner Donnell Reed.

Rare Coin Mail Fraud Is Charged

A stock and bond salesman who, postal inspectors said, fraudulently collected rare gold coins on the side, was arrested yesterday on a charge of using the mails in a scheme to defraud.

Edward J. Moschetti, 34, of 1429 Hawthorne St., Stanton Heights, was released on a \$500 bond yesterday by U. S. Commissioner Donnell D. Reed, before whom he will be given a preliminary hearing later.

Inspector Warren Koppenhofer said Moschetti admitted collecting gold coins through registered or insured mail from various coin collectors and dealers in the nation and then writing them that he had received their letters, minus the coins.

Koppenhofer said Moschetti had a tin box of gold coins in the basement of the Moschetti home and some other coins in his bedroom. Moschetti estimated the value of the coins at \$5,000.

Koppenhofer said that at least 30 complaints had been received by postal authorities in various parts of the country in the last three months.

Moschetti operates Eddie's Coin Shop at the Stanton Avenue address, where he lives with his parents. Moschetti is a veteran of the Korean War. He is divorced.

To the Members and Officers of the Western Penna.
Numismatic Society;

Dear Fellow Members:

Several times in the
past year I have had as my guest Mr Edward Oschman,
who was extremely interested in our society and asked
me the procedure for applying for regular membership
He has been supplied with the necessary items and
tonight his application is being presented, along with
this letter of recommendation.

I have known and observed "Ed" for over four years
now and I have no hesitation in recommending him for
membership in any worth-while group. His word is his
bond, his dealings are all fair and above-board,
while his interest in Numismatics seems to be in-
creasing if anything. Those of us who belong to
the other clubs or groups with Ed will back me on
this I am sure, and the position he holds with the

Post Office Dent. is a recommendation in itself.

I therefore wish to recommend Mr. Edward L.

To the Officers and Members of
the Western Penna. Numismatic Society;

Dear Fellow Members:

Mr. Frank Beam, who has
been a guest of mine at several WNS meetings in the
past year, has applied for regular membership in our
society. Being his sponsor I would like to submit
this letter of recommendation for him.

I have known Frank personally for about
three years now, but knew of him for a year or two
previous to this. He had been recommended to me by
a person whose word I valued and I can say that Frank
has lived up to it.

Numismatically speaking now I believe Frank will
make a worthy addition to the WPNS, and I base my
belief on my own observation of his action in three
other organizations to which we belong in common.

Therefore, with the above facts in mind I do
recommend Frank for membership in WPNS

ADDRESS OF SECRETARY

The Coin World
P. O. Box 150
Sidney, Ohio

The Western Pennsylvania Numismatic Society met in the Carnegie Museum Library, Tuesday, February 5, 1963 at 8 P.M. Richard Foley presided. Present were 14 members and 4 guests.

The speaker of the evening was Richard Foley who talked on "Sommer Island Coins". The largest collection of Sommer Island pieces probably in the world was on display at this meeting. This included original coins, commemorative coins, struck copies, mules, and tokens. Part of the above display was the George H. Clapp (one of the founders of the Western Pennsylvania Numismatic Society) collection of Sommer Island pieces which are contained in the Carnegie Museum collection. It included the 1616 shilling, 1612 6 pence, 1616 3 pence of which there are only 3 known, and the 1616 2 pence. Mr. Clapp spent a lifetime attempting to obtain the 1616 3 pence, and the story is told that he found it in Bermuda and the deal was consummated on the gangplank of the ship as he was leaving the islands. Foley evolved the history of the Sommer Islands, later known as the Bermuda Islands, in an interesting manner from the time of the original Spanish records of 1515 and Admiral Sommer's

shipwreck in 1609. In view of the number of hogs which invaded the island as a result of the shipwreck, the island was known as "Hog Island" and the coins as "hog money" or "hoggies." Foley described in detail the various pieces on exhibit and had an attractive, unusual, and unique copy of Wuesthoff die struck over a 1879 United States #10 gold piece. It is one of two known and one of five pieces of any die ever reported counter-struck over a United States gold coin.

EXHIBITS:

H. Bartley: 6 bank notes of Germany and various transportation tokens.

F. Beam: Newfoundland small cents.

J. Burns: Plastic tokens used in the South Carolina state penitentiary.

R. Byrne: Various gold pieces of Americas and Mexican silver (1535-1556) struck by Rincon.

J. Kennedy: 48 various modern coins of Denmark, France, Greece, Italy and Switzerland.

G. Kiefer: 5 Solidi-Roman Empire.

G. Mooney: Jasperware medallion in three colors, #3207, of "Painted Horse, Chief Ogalalla."

R. Porter, Jr.: So. African proof sets, 1953 and 1954, 25 year silver medal A.N.A. award.

J. O. Sloss, M.D.: Gold proof set 1908, 1854 Kellog \$20 gold piece.

W. W. Woodside: English Gold, Edward III noble of
1st issue (1351-52), Henry III-Sovereign 3rd issue (1545-47),
Charles I-3 pounds, Oxford-1643.

The meeting adjourned at 9:30 P.M.

Mr. Demetrius Salada

Dear Mr. Salada:

Your letter addressed to Richard Foley was referred to me.

The Western Pennsylvania Numismatic Society was organized in 1878 for the study of numismatic science and for exchange of ideas and information. This organization is the third oldest numismatic society in the United States. Its Constitution was adopted on November 21, 1879. Article I states: "Its object shall be the promotion of Numismatic Science and the formation of a Cabinet and Library for the use of its members."

A candidate for membership must be sponsored by a resident member in good standing. The applicant must be an individual with integrity, reputable, and of good character. He must be a student of numismatics, and interested in presenting original papers related to his numismatic interests.

The society was originally founded with the object to increase the knowledge and science of numismatics, therefore, applicants having dealer interests are not desired nor elected to membership.

Sincerely yours,

Dear Mr. Hewitt:

The enclosed paper "The Chemistry and Mechanics of Coin Housing" was presented to the Western Pennsylvania Numismatic Society, January 8, 1963 by member, Mr. Glenn A. Mooney.

The subject material was received with enthusiasm by the society, and it was the consensus of opinion that I forward this paper to you for your opinion relative to publishing it in the Scrapbook. I would like to inform you that it has not been sent to any other coin publication. If you are interested in publishing it, please inform me, and if you are not interested, kindly return the manuscript to me.

Mr. Mooney spent a great deal of time in the research on this particular subject, and we are of the opinion that it would be of interest to other members of the numismatic fraternity.

With kindest personal regards, I remain,

Sincerely yours,

The Western Pennsylvania Numismatic Society met in the Carnegie Museum Library, Tuesday, March 5, 1963 at 8 P.M. Richard Foley presided. Present were 11 members and 2 guests.

William W. Woodside talked on "The Money of the Isle of Man." Mr. Woodside developed the history of the Isle of Man from the time of the Vikings about 800 A.D. and the Rule under the Scandanavian Kings of Dublin. He took the history thru the period of 1266 when it was controlled by the Scots and how it fluctuated between England and Scotland until 1333 when it came under English rule. In 1406, the Crown granted the Islands rule to Sir John Stanley and 12 others of his family, the Earls of Derby, who ruled it until James Stanley died in 1736. Prior to 1505, the ruling Stanley's called themselves Kings, however, to please the reigning monarchs of England, they changed their title to "Lord of Man." As of 1829, all the privileges of the Lords of Man became vested in the British Crown. Today, it is still a Crown dependency, separated from Great Britain, to which acts of the British parliament do not

apply unless so stated. It has a lieutenant governor, its own parliament, (Tynwald Court), the lower house known as the House of Keys, which is one of the oldest legislative bodies in the world. It has its own courts, and its own bar, and many other peculiar institutions. Today Elizabeth II rules the Island as "Lord of Man."

Mr. Woodside devoted some time in discussing the various devices on the coins and tokens including the Stanley family crest which is an eagle with wings spread standing over an infant which lies upon an ornate cap called a "Cap of Maintenance." He informed us that prior to the 17th century, there was no Manx Money, but Roman, Anglo-Saxon, English, Irish, Scottish, and Danish coins.

The first pieces struck for Man were brass penny tokens issued in 1668 by John Murrey, a merchant of Douglas. These tokens are of great rarity. The remainder of his talk centered around a discussion and exhibit of the various coins of this island and he used his exhibit to illustrate this most interesting money of the Isle of Man.

Dear Numismatic Friends:

As you undoubtedly know from reading the Numismatist, I am a candidate for the Presidency of the American Numismatic Association in the coming 1963 Election, having already been nominated by a number of clubs and individuals. I am writing to ask if I might receive the nomination and vote of your ANA member club. If so, the nomination should be made for me for "President and Member of the Board" as the office is now designated in the ANA By-Laws, and should be sent as soon as possible to ANA Secretary, Don Sherer, 3520 North 7th Street, Phoenix 14, Arizona.

Probably I am personally acquainted with many of you since I have attended, spoken at and displayed coins at many coin conventions, club meetings and coin shows across the United States and in Canada in the past 20 years. However, I feel that you are entitled to know some of my qualifications for this important position in our national organization. Thanks to your support, I have been elected to serve two consecutive 2-year terms as a Member of the Board of Governors of the ANA for the past 4 years. According to the By-Laws, the official requirements for the office of President of the ANA are that "No member shall be eligible for election as President or First Vice President unless he shall have first been elected and served at least one term as a member of the Board of Governors, Second Vice President, Treasurer, or General Secretary of the Association". Therefore, there should be no question of my eligibility.

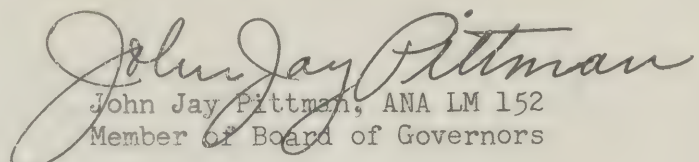

In addition to serving as a member of the Board of Governors, I have served on many committees of the ANA, including being Chairman of the Visual Education Committee from 1958 to date, Chairman of the ANA By-Laws Committee 1961 to date, a member of the 1958 Resolutions Committee, the Junior Coin Club Committee in 1949, and a member of the ANA Convention Education Panels in 1949 and 1958. During the past year I have been active in working for the Lewis M. Reagan Memorial Fund. I have authored several numismatic articles including the section on Numismatic Literature in the "Introduction to Numismatics" published in 1962 by the ANA. You may also realize from the articles in coin publications that I was very much involved in obtaining in 1962, perpetual renewal of our ANA federal charter. At the 1962 Detroit Convention I was awarded the ANA Medal of Merit.

I have participated in the activities of many local and regional numismatic organizations and have been president of my local club, President of the Empire State (New York) Numismatic Association for 3 terms, 1956-1958, President of the Middle Atlantic Numismatic Association (all states New York through North Carolina inclusive) for two non-consecutive 2-year terms, 1954-1955, 1959-1960. At the present time I am serving my second term as an elected director of the Canadian Numismatic Association representing the Eastern U.S.A. I also am a Life Fellow of the American Numismatic Society and have served that organization as Chairman of the Committee on Contemporary Coins for the past 10 years.

As a collector, I have been interested in coins of the world and numismatic literature. I have specialized type collections of United States, Canada, British Empire, Mexico, and Swedish coins and have displayed many of the coins at numerous conventions during the past 15 years. I enjoy attending numismatic conventions not only to see the collections of others but also since I firmly believe that there is always something to learn from other collectors. This mutual education is one of the main reasons for the existence of our national organization and a reason for making it a stronger organization. As a graduate chemical engineer and as a student of numismatics, I have been able to assist in identifying and authenticating many questioned coins, thereby helping to protect our hobby from unscrupulous individuals.

With the above personal record, I feel that I am definitely qualified to cope with the problems which confront as large and as diversified an organization as our American Numismatic Association. I respectfully request the privilege of serving you as your next President and ask that your ANA Member Club nominate me now and support me with your Club's vote and the votes of the individual ANA members of your Club when the ballots are out. Your help will be greatly appreciated.

Sincerely yours,

John Jay Pittman, ANA LM 152
Member of Board of Governors

COMMISSION LUTTE CONTRE LES FALSIFICATIONS MODERNES
COMMITTEE AGAINST MODERN FORGERIES

President de la Commission:)
President of the Committee:) J. Schulman

The President of

Dear Sir,

You are probably aware of the existence of many official restrikes, as well as forgeries of gold coins of the XIXth and early XXth Centuries, which have appeared on the market in recent years in different countries.

These are either ordinary coins struck in large numbers, or rarities. Some bear a mark to differentiate them from the originals, others do not. All of them have one common purpose; to use for commercial gain the attraction gold has for the general public and to indulge in a speculative gamble.

Although up till now the manufacturing methods used have enabled us to recognize these pieces, this procedure by its very magnitude raises a serious Numismatic problem.

As you well know many collectors are interested in modern coins and form a very active branch of numismatics. It is however probable that when all the rare XIXth century coins have been restruck by the thousand, many collectors will abandon numismatics altogether.

The importance of this problem has not escaped the American Administration and in July last the American Treasury Department instituted severe restrictions to prevent the entry of forgeries and restrikes into the United States of America.

In the name of the I.A.P.N. we should like to have the advice of your Society on this question, and to that end we enclose a questionnaire.

We would be glad if you would kindly fill it in and return it to the address shown on the questionnaire.

Thanking you in advance,

Yours sincerely,

The Members of the Association.

Oklahoma City Coin Club
A. N. A. 7118
Established 1936

Dear Fellow Coin Collectors and A. N. A. Members:

We in the Oklahoma City Coin Club and the Oklahoma Kansas Numismatic Association take great pleasure in placing ~~for nomination~~ as President of the American Numismatic Association the name of P. K. Anderson, now serving as your First Vice-President.

Mr. Anderson, "P. K." to his friends, has been a member of the Association for over twenty-five years and has done much for our hobby. He is the author or co-author of such papers in the Numismatist as "The Coinage of Spain," "Ephemeral Coinage of Spain," "Numismatic Tattooing," "The Chrysaor Head," "Dated List of Spanish Rulers," and presently appearing paper on the medieval Iberian coinages. There have been others in the past. You may have read his section on certain Spanish American coinages in the Introduction to Numismatics, published by the A. N. A. last year.

Mr. Anderson has served the Association long and well, initially as a foreign representative in several South American countries, later as a member of many convention committees and recently for four years as a member of the Board of Governors. He was elected to the post of First Vice-President at the Atlanta convention, and, in accordance with normal procedure, should succeed to the President's office. For his previous contributions to the A. N. A., he has been awarded a number of Heath prizes and holds the Medal of Merit. We feel that the record of this retired civil engineer merits his succession to the Presidency and that he will prove to be a worthy and capable leader. We know that the man we are nominating for this high office is a proven numismatist of the first rank and is not affiliated or associated with any agency or organization where there might be a conflict of interest.

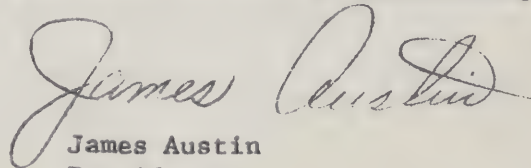

Mr. Anderson is probably best known as a collector of the coinages of Spain but he is an equally avid student of the West Indian issues, especially the cut and countermarked forms. Locally, he is interested in the merchants' tokens of Oklahoma and Indian Territory.

We feel that your support, and if you will, your seconding nomination, of P. K. Anderson will be in the best interests of the American Numismatic Association. The Oklahoma City Coin Club and the O. K. N. A. will appreciate any help you may be willing to give us in this matter. The democratic process of the ballot is the key to the vital administration of any unit, be it governmental or organizational, and the active participation of all members is the only sure way to representative government. Finally, may we apologize for sending this form letter. A personal note to each group would be our ideal goal, but the mechanics of such an undertaking make it impossible. We hope you will understand.

Dear Mrs. Hall,

It has been brought to the attention of the members of the Western Pennsylvania Numismatic Society that your husband, Charles, passed away Thursday, May 16, 1963.

On behalf of the society, I would like to extend our deepest sympathy. Charles was very interested in the society, and as a result made many friends.

If at any time a need arises, please feel free to call upon the society or any individual member for assistance.

Most sincerely,

The Numismatist
Mr. Elston G. Bradfield, Editor
P. O. Box 3491
Chicago 54, Illinois

The Western Pennsylvania Numismatic Society met
in the Carnegie Museum Library, Tuesday, May 7, 1963 at 8 P.M.
Present were 17 members. Richard Foley presided.

The program of the evening consisted of a talk by
Dr. James Sloss, "The United States Gold Ring Dollars." Dr.
Sloss stated that this pattern was first introduced in 1836
by Patterson. Ten (10) pieces were counterstruck in gold which
was alloyed with copper and these were struck on the first
steam press. He informed us that he only knows of three (3)
with an up-side-down reverse. Nothing was done about this
particular type until 1849 when three (3) were engraved in
gold. In 1852, a larger coin was considered with a circular
hole. Two (2) specimens were struck over a \$2.50 gold piece.
The idea back of the hole, was that it made it easier to hold
this piece between the thumb and forefinger. Dr. Sloss dis-
cussed the various pieces and exhibited coins from his own
collection.

This brings to a total of seven (7) pieces known
of any die counterstruck on a U. S. gold coin. The pieces
are as follows:

Two (2) ring dollars struck over U.S. \$2.50
gold pieces.

Two (2) Wuesthoff Bermuda dies counterstruck on
a 1879 and 1880 U. S. \$10.00 gold piece.

The Massachusetts and California \$5.00 gold piece
counterstruck on a U.S. undated \$5.00 gold piece.

Clark Gruber 1861 \$20.00 gold piece counterstruck
on a U.S. 1857 S mint \$20.00 gold piece.

A. J. J. Conway pioneer gold piece counterstruck
on a \$5.00 U. S. 1845 gold piece.

The Secretary would like to hear from other numis-
matists of others counterstruck on U. S. gold.

EXHIBITS:

Africa.
